PORTFOLIO

Professional Summary

A software engineer with hands-on experience designing responsive full-stack web applications using React, JavaScript, HTML, CSS, and Node.js. Skilled in developing clean user interfaces, integrating REST APIs, and debugging full-stack applications. Passionate about building responsive and intuitive user experiences while growing as a frontend developer. Comfortable working independently, learning new technologies, and collaborating in fast-paced environments.

Education

Southern New Hampshire University
Bachelor of Science in Computer Science
May 2026

Johnson County Community College
Associate of Science
May 2023

Technical Skills

Frontend: HTML, CSS, JavaScript (ES6+), React, Angular, Bootstrap

Backend: Node.js, Express.js

Databases: MongoDB

Tools & Technologies: Git, GitHub, Postman, Webpack, NPM, Visual Studio Code

Concepts: REST APIs, CRUD operations, Responsive Design

Experience

Pro AV Systems

2023 – 2024

Position: Software Engineer

Developed and maintained internal web tools using JavaScript, HTML, and CSS

Collaborated with team members to troubleshoot software issues

Outdoorsy

2022 – 2022

Position: Software Engineer Intern

Assisted in developing and testing frontend features using JavaScript and React

Participated in debugging and code reviews

Worked with REST APIs to retrieve and display application data

Projects

Posh Paws Boarding (React & Node.js Full-Stack) | [LIVE DEMO](#) | [GITHUB](#)

- Built a full-stack pet boarding system supporting booking and check-in workflows
 - Designed and implemented 10+ REST API endpoints supporting pet bookings, check-ins, and customer management.
 - Built responsive React components focused on usability and real-time updates
 - Integrated MongoDB for data persistence, optimized query performance, and tested using Postman
-

Travlr Website (MEAN Stack) | [GITHUB](#)

- Built a full-stack booking application with Angular SPA and Express backend
 - Developed REST API Endpoints and resolved CORS issues for Frontend-Backend integration
 - Applied MVC architecture to improve application scalability
-

Photomemories Web Application (Frontend) | [LIVE DEMO](#) | [GITHUB](#)

- Built a responsive multi-page website using HTML, CSS, and JavaScript
 - Implemented client-side form validation and interactive booking workflows
 - Designed reusable UI components and responsive layouts optimized for desktop and mobile devices
-
